MONDAY, APRIL 30.

A CANARD.

A rumor industriously circulated here of late, to the effect that the Nacosari "and Gulf railroad project had been abandoned, upon investigation has proven absolutely baseless. As rumors often are within the domain of news, it was published as a rumor. Subsequent information has convinced the ORE that the story of the Copper Queen's disposal of its concession from the Mexican government not only has no foundation in fact but that very probably it may have had birth in the too busy brain of some vicious person who might, in some way further personal schemes by the effect of such talk.

The preparations for resumption of sailroad construction now under way at the thriving burg of Naco, and the complete lack of the slightest atom of truth at the bottom of the fool report, coninto using windy nothingness for news.

STATISTICS show immense gains in Mexican trade and revenues. Our sister republic's sobriquet-"Land of Manana"-has assumed a prophetic meaning.

THE Bremen Weser Zeitung is afraid we're dritting toward imperialism, that we may produce another Napoleon. That's all right, Weser. We are much obliged for your generous solicitation, but, nevertheless, we imagine that your imperialistic realm is not an environment conducive to clear headed judgement of the Yankee' or his hog.

Wn wish to set aright our cow contemporary, the Range News, concerning the efforts of Cochise county officers to capture Alvord and his companions. "Pursuit of the Tombstone escapes," sez 'e. "was never vigorous." To those who have observed the many attempts of Bisbee officers to reach the outlaws, this information from far Willebx will come as a revelation. 'Tis passing easy to sit in the topmost tier of safety and vociferously instruct the gladiators in the danger zone as to how the fighting should be properly carried on. We doubt not the Range News editor's ability to wade through seas of gore and capture whole squadrons of the enemy. We leaser bad men of Cochise county would better get the doughty Dunlap over here to clear our croubled county of law-breakers.

MAYOR HARRISON says Jeffries and Sharkey cannot fight in the pneumatic municipality wherein he bath jurisdiction. The mayor's resolve undoubtedly meets with the approval of all. If the big-thewed lecturers would really fight, as did their prototypes, the gladiators, they would experience no difficulty in arranging for punching seances. If a man did not want to see them, he need not attend their exhibitions of scientific principles. But when it is considered that they talk incessantly during weary year intervals between the rare occasions upon which they fight-that their fights, in short, are merely bluffs indulged in for the purpose of advertising the theatrical companies and gin-mills owned by the wind-gladiators, the only correct course is to stop them, and make them earn their living.

A MEETING of the editors and representatives of the newspapers of this county was held at Benson yesterday. One of the results of a conference between the men who seek to influence public opinion, and to reflect public thought from the pages of their journals, should be an understanding that spirited enterprise, and a desire for public good, should dominate mere personal feeling and self aspiration. To present the news to the public, the best news, is the foremost duty of the paper. The dissemination of news relating to the prosperity of the town and county aids. the progress of the people and calls attention to the wealth and capabilities of the district. Fair comment on local and outside events is, of course, an essential feature, but the real object is to conduct a clean, progressive sheet in the interests of the locality, represented, without fear or favor. The true efforts of the proprietors of the local paper in the cause of prosperity is always appreciated by the public, and there should be at all times a ready response from the citizens of the district, whose intercets in that district are at stake, to the honest and painstaking efforts of the newspaper on behalf of their advancement.

Sacrificed to Blood Poison.

Those who have never had Blood Pai son can not know what a desperate condition it can produce. This terrible disease which the doctors are totally unable to cure, is communicated from one generation to another, inflicting its tion: taint upon countless innocent ones.

Some years ago I was insociated with polson by a nurse who infected my labe with blood taint. The little one was unequal to the struggle, and its life was ricided up to the fer-frui polson. For six lovg years Lauftered un'ald misery. I was covered with sores and ulgers from head to foot, and he language can express my feetings

of wee during those long years. I had the best med cal treatment. Sev-

med cal treatment. Several physicians successively treated me but all to no purpose. The meroury and potash seemed to add fuel to the awful flame which was devouving me. I was advised by friends who had seen wonderful cures made by it, to try Swift's Specific. We got two bottles, and I felt hope again revive in my breast—hope for health and happiness again. I improved from the start, and a complete and perfect ours was the result. S. S. S. is the only blood remedy which peaches dosperate cases.

Mas. T. W. Lee.

Montgomery, Ala.

Of the many blood remedies, S. S. S. is the only one which can reach deepseated, violent cases. It never fails to cure perfectly and permanently the most desperate cases which are beyond the reach of other remedies.

is PURELY VEGSTABLE, and is the only blood remedy guaranteed to contain no mercury, potash, or other mineral.
